

CURB MARKET TRANSACTIONS

The number of curb stocks dealt in yesterday was reduced, and except in a few instances trading was comparatively quiet. Price changes among the industrials were generally narrow. Druggs-Seabury, however, was again active and continued its advance, gaining 12 points on the day. Atlantic Gulf and West Indies made fractional improvement. The Marine issues, which were depressed on Friday, recovered part of the loss, the common gaining 1 1/4 and the preferred 2 1/4 points. Fewer oil stocks were dealt in and price changes were irregular. Pierce Oil was most active and ended nearly a point higher. Illinois Pipe Line advanced 2, while Prairie Oil and Gas receded 2 points. Small fractional price changes were common in the coppers. Kennecott Copper 6 1/2 made another decline of 1/4 points.

BRITISH ISSUES CONTINUE FIRM

Consols and War Loan Improve, with Offerings Small—Copper Stocks Dull.

London, Nov. 27.—Continued firmness in British issues, with a further rise in consols and active dealings in the war loan at hardening prices, enlivened the usual Saturday quiet on the Stock Exchange. Offerings of both consols and the war loan were small. Elsewhere trading was quiet. Rubber shares were easy and copper dull, but Kaifirs had a better day. Consols closed higher, at 97 1/4. The war loan is higher, at 97 1/4.

American securities showed a disposition to go lower and closed easy. Only a small amount of business was transacted. The money market was well supplied with funds, and discount rates were easy. American exchange rates were steady. Money loaned at 4 to 4 1/4 per cent. Discount rates for short and three months' bills were 5 1/4 per cent. Gold premium at Lisbon was 60.

Paris, Nov. 27.—Prices were firm on the Bourse to-day. Three per cent rentes closed unchanged at 44 francs 50 centimes. Exchange on London, 27 francs 82 centimes.

AMERICAN POTATOES IN ARGENTINA

United States Taking the Market Away from Spain.

"The American," the monthly magazine published by the National City Bank, says in its November issue that this year has marked the advent of the United States potato in the Argentine market. Heretofore potatoes from Spain, France and Italy, and some from England and New Zealand, have met the deficiency when home production.

"It was with a great deal of interest, therefore, that North Americans in Buenos Ayres have observed the efforts of importers to introduce potatoes from the United States. Conditions existing during the last few months presented an excellent opportunity for the shipment of potatoes from the United States to the Argentine market. The vessels carrying the potatoes were freighted, and vessels were few and freights high. Importers looked to the United States for supplies, and a large quantity of potatoes were obtained from that source and sold with success.

"It is well, however, to note in passing that some mistakes were made. Experience has demonstrated that the local dealer, that some of the potatoes grown in the United States are equal to or not better than potatoes from Southern Europe. Several arrivals from Spain have been similar to those frequently received from the United States, and vessels were discharging at the same time.

"The Spanish potatoes are regular in shape and size, light in color, and grow in three to four ounces. Fortunately for the reputation of the North American potato shippers, as a whole the consignments received from most of them were satisfactory and are being sold by importers, it is understood, they intend to go in for North American potatoes more extensively next year."
